

Lawyer at your service!

We serve our clients with a humane attitude and provide a wide range of legal services for both private individuals and companies. Our scope of the legal services for private persons covers family law and inheritance law related issues such as drafting last will and testaments, marriage settlements and petitions for divorce, divisions of marital and inherited property as well as issues related to buying and selling of housing and real estate deals. We also assist our clients in various types of contractual issues, in contacts to national authorities and other instances as well as issues related to employment matters and various types of dispute resolution. We are also happy to help foreigners to adapt themselves to the Finnish society.

We assist your company to succeed in business and offer prompt advice in contractual and other legal matters, in various types of negotiations and assist in possible dispute as well as legal proceedings. We strive for win-win outcomes for both your company and your business partners and collaborators.

Our specific expertise consist of diversified experience in contract law, construction law and its general conditions, construction contracts and related dispute, public procurement, company law, mergers and acquisition, employment and labour law as well as litigation and arbitration.

Yours sincerely,

Markku Eskelinen
